IB Environmental Systems and Societies

Internal Assessment (IA)

The IA is worth 20% of the final assessment and is graded based on IB Criteria.

Each of the assessment criteria can be separated into three **aspects** as shown in the following sections. Descriptions are provided to indicate what is expected in order to meet the requirements of a given aspect **completely (c)** and **partially (p)**. A description is also given for circumstances in which the requirements are not satisfied, **not at all (n)**. These sections are given marks completely – 2, partially – 1, and not at all – 0.

All IA submissions must be your own work.
